Issue Date 17-Feb-2015 Revision Date 03-May-2021 , Version 1.4

# NEON

## Safety Data Sheet

## 1. IDENTIFICATION

**Product identifier** 

Product Name NEON

Other means of identification

Safety data sheet number LIND-P084 UN/ID no. UN1065

**Trade name** Grade 4.6, Grade 5.0, Research

Recommended use of the chemical and restrictions on use

Recommended Use Industrial and professional use.

Uses advised against Consumer use

Details of the supplier of the safety data sheet

Messer North America, Inc. - Messer LLC - Messer Merchant Production LLC

200 Somerset Corporate Blvd, Suite 7000

Bridgewater, NJ 08807 Phone: 908-464-8100 www.messer-us.com

Messer Gas Puerto Rico, Inc.

Road 869, Km 1.8

Barrio Palmas, Catano, PR 00962

Phone: 787-641-7445

For additional product information contact your local customer service.

## Emergency telephone number

Company Phone Number +1 800-232-4726 (Messer National Operations Center, US)

CHEMTREC: 1-800-424-9300 (North America) +1-703-527-3887 (International)

<sup>\*</sup> May include subsidiaries or affiliate companies/divisions.

## 2. HAZARDS IDENTIFICATION

## Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

(iacac undar nraccura	Compressed gas
Simple asphyxiants	Yes

#### Label elements

Signal word

Warning

## **Hazard Statements**

Contains gas under pressure; may explode if heated May displace oxygen and cause rapid suffocation

## **Precautionary Statements - Prevention**

Do not handle until all safety precautions have been read and understood Use and store only outdoors or in a well ventilated place Use a backflow preventive device in piping Use only with equipment rated for cylinder pressure Close valve after each use and when empty

## **Precautionary Statements - Response**

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention/advice.

## **Precautionary Statements - Storage**

Protect from sunlight when ambient temperature exceeds 52°C/125°F

## Hazards not otherwise classified (HNOC)

Not applicable

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Pure Gas

Chemical Name	CAS No.	Volume %	Chemical Formula
NEON	7440-01-9	>99	Ne

4 FIRST AID MEASURES
4 FIRST AID MEASURES

#### **Description of first aid measures**

**General advice** Show this safety data sheet to the doctor in attendance.

**Inhalation** Remove to fresh air and keep comfortable for breathing. If breathing is difficult, give oxygen.

If breathing has stopped, give artificial respiration. Get medical attention immediately.

**Skin contact** None under normal use. Get medical attention if symptoms occur.

Eye contact None under normal use. Get medical attention if symptoms occur.

**Ingestion** Not an expected route of exposure.

Self-protection of the first aider RESCUE PERSONNEL SHOULD BE EQUIPPED WITH SELF-CONTAINED BREATHING

APPARATUS.

#### Most important symptoms and effects, both acute and delayed

**Symptoms** Simple asphyxiant. May cause suffocation by displacing the oxygen in the air. Exposure to

oxygen-deficient atmosphere (<19.5%) may cause dizziness, drowsiness, nausea, vomiting, excess salivation, diminished mental alertness, loss of consciousness and death.

Exposure to atmospheres containing 8-10% or less oxygen will bring about

unconsciousness without warning and so quickly that the individuals cannot help or protect

themselves. Lack of sufficient oxygen may cause serious injury or death.

## Indication of any immediate medical attention and special treatment needed

## 5. FIRE-FIGHTING MEASURES

## Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### Specific extinguishing methods

Continue to cool fire exposed cylinders until flames are extinguished. Damaged cylinders should be handled only by specialists.

#### Specific hazards arising from the chemical

Non-flammable gas. Cylinders may rupture under extreme heat.

#### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures

Personal precautions Evacuate personnel to safe areas. Ensure adequate ventilation, especially in confined

areas. Monitor oxygen level. Wear self-contained breathing apparatus when entering area

unless atmosphere is proved to be safe.

**Environmental precautions** 

**Environmental precautions** Prevent spreading of vapors through sewers, ventilation systems and confined areas.

Methods and material for containment and cleaning up

**Methods for containment**Stop the flow of gas or remove cylinder to outdoor location if this can be done without risk.

If leak is in container or container valve, contact the appropriate emergency telephone

number in Section 1 or call your closest Messer location.

#### Methods for cleaning up

Return cylinder to Messer or an authorized distributor.

## 7. HANDLING AND STORAGE

#### Precautions for safe handling

#### Advice on safe handling

Protect cylinders from physical damage; do not drag, roll, slide or drop. When moving cylinders, even for short distance, use a cart designed to transport cylinders. Never attempt to lift a cylinder by its valve protection cap. Use an adjustable strap wrench to remove over-tight or rusted caps. Never insert an object (e.g. wrench, screwdriver, pry bar,etc.) into valve cap openings. Doing so may damage valve, causing leak to occur. Use only with adequate ventilation. Use a backflow preventive device in piping. Use equipment rated for cylinder pressure. Close valve after each use and when empty. If user experiences any difficulty operating cylinder valve discontinue use and contact supplier. Ensure the complete gas system has been checked for leaks before use.

Never put cylinders into trunks of cars or unventilated areas of passenger vehicles. Never attempt to refill a compressed gas cylinder without the owner's written consent. Never strike an arc on a compressed gas cylinder or make a cylinder a part of an electrical circuit.

Only experienced and properly instructed persons should handle gases under pressure. Always store and handle compressed gas cylinders in accordance with Compressed Gas Association publication CGA-P1, Safe Handling of Compressed Gases in Containers.

For additional recommendations consult CGA P-76.

#### Conditions for safe storage, including any incompatibilities

**Storage Conditions** 

Store in cool, dry, well-ventilated area of non-combustible construction away from heavily trafficked areas and emergency exits. Keep at temperatures below 52°C / 125°F. Cylinders should be stored upright with valve protection cap in place and firmly secured to prevent falling. Full and empty cylinders should be segregrated. Use a "first in-first out" inventory system to prevent full cylinders from being stored for excessive periods of time. Stored containers should be periodically checked for general condition and leakage.

#### Incompatible materials

None known.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

**Exposure Guidelines** 

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
NEON	: See Appendix F: Minimal	None	None
7440-01-9	Oxygen Content		

## Appropriate engineering controls

#### **Engineering Controls**

Oxygen detectors should be used when asphyxiating gases may be released. Systems under pressure should be regularly checked for leakages. Provide general ventilation, local exhaust ventilation, process enclosure or other engineering controls to maintain airborne levels below recommended exposure limits and to maintain oxygen levels above 19.5%.

## Individual protection measures, such as personal protective equipment

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Skin and body protection** Work gloves and safety shoes are recommended when handling cylinders.

**Respiratory protection**Use positive pressure airline respirator with escape cylinder or self contained breathing

apparatus for oxygen-deficient atmospheres (<19.5%).

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Information on basic physical and chemical properties

Physical stateGasAppearanceColorlessOdorOdorless

Odor threshold No information available

pH Not applicable

-248.6 °C / -415.5 °F -246 °C / -411 °F Melting/freezing point Boiling point / boiling range **Evaporation rate** Not applicable Flammability (solid, gas) Non-flammable gas Lower flammability limit: Not applicable **Upper flammability limit:** Not applicable Not applicable Flash point No data available **Autoignition temperature** Decomposition temperature No data available

Water solubility
Partition coefficient
Kinematic viscosity

**Component Level Information:** 

Chemical Name	Molecular weight	Boiling point/range	Vapor Pressure	Vapor density (air =1)	Gas Density kg/m³@20°C	Critical Temperature
NEON	20.17	-246.1 °C	Above critical temperature	0.694	0.922	-228.8 °C

## 10. STABILITY AND REACTIVITY

## Reactivity

Not reactive under normal conditions

#### **Chemical stability**

Stable under normal conditions.

## **Explosion data**

Sensitivity to Mechanical Impact None.
Sensitivity to Static Discharge None.

## **Possibility of Hazardous Reactions**

None under normal processing.

#### Conditions to avoid

None under recommended storage and handling conditions (see Section 7).

#### Incompatible materials

None known.

## **Hazardous Decomposition Products**

None known.

## 11. TOXICOLOGICAL INFORMATION

## Information on likely routes of exposure

**Inhalation** Product is a simple asphyxiant.

Skin contact No data available

**Eye contact** No data available

**Ingestion** Not an expected route of exposure.

#### Information on toxicological effects

**Symptoms** Simple asphyxiant. May cause suffocation by displacing the oxygen in the air. Exposure to

oxygen-deficient atmosphere (<=19.5%) may cause dizziness, drowsiness, nausea, vomiting, excess salivation, diminished mental alertness, loss of consciousness and death.

Exposure to atmospheres containing 8-10% or less oxygen will bring about

unconsciousness without warning and so quickly that the individuals cannot help or protect

themselves. Lack of sufficient oxygen may cause serious injury or death.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

IrritationNot classified.SensitizationNot classified.Germ cell mutagenicityNot classified.

Carcinogenicity This product does not contain any carcinogens or potential carcinogens listed by OSHA,

IARC or NTP.

Reproductive toxicity
Developmental Toxicity
STOT - single exposure
STOT - repeated exposure
Chronic toxicity
Aspiration hazard
Not classified.
Not classified.
None known.
Not applicable.

#### Numerical measures of toxicity

**Product Information** 

Oral LD50 No information available
Dermal LD50 No information available
Inhalation LC50 No information available

## 12. ECOLOGICAL INFORMATION

#### **Ecotoxicity**

No known acute aquatic toxicity.

## Persistence and degradability

No information available.

#### **Bioaccumulation**

No information available.

## 13. DISPOSAL CONSIDERATIONS

## Waste treatment methods

**Disposal of wastes**Do not attempt to dispose of residual waste or unused quantities. Return in the shipping

container PROPERLY LABELED WITH ANY VALVE OUTLET PLUGS OR CAPS

## SECURED AND VALVE PROTECTION CAP IN PLACE to Messer for proper disposal.

## **US FEDERAL REGULATIONS**

#### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

#### SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

## **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

#### Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

#### **CWA (Clean Water Act)**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

## Risk and Process Safety Management Programs

This material, as supplied, does not contain any regulated substances with specified thresholds under 40 CFR Part 68. This product does not contain any substances regulated as Highly Hazardous Chemicals pursuant to the 29 CFR Part 1910.110.

## **US STATE REGULATIONS**

#### **California Proposition 65**

This product does not contain any Proposition 65 chemicals
